

Lab 5

This assignment focuses on use case modeling for your fictitious SBRU travel service. Perform the following activities as part of the assignment:

- Read the case study at the end of Chapter 5, and you will need to rely on the work you did for Chapters 3 and 4
- You should use the 4 questions for the case study as a guide to the following:
 - Add new resort use case
 - Add book reservation use case
 - Activity diagrams
 - Sequence diagrams
 - CRUD analysis
- There are drawing tools in the "Start Here" section of the course. You can also use tables in Word for some of this work.
- Remember tables and diagrams always need a narrative to elaborate on them. This is what makes your document a narrative business document and not just a list of facts and ideas.
- Upload your Word document
